

PROJECT OBJECTIVES

Date	09 November 2022
Team ID	PNT2022TMID44333
Project Name	Developing a Flight Delay Prediction Model Using Machine Learning

Project Objectives:

You'll be able to understand the problem to classify if it is a regression or a classification kind of problem.

You will be able to know how to pre-process/clean the data using different data pre-processing techniques.

You will be able to analyse or get insights into data through visualization.

Applying different algorithms according to the dataset and based on visualization.

You will be able to know how to build a web application using the Flask framework.
